I received a email asking for a tape of my event in Cleveland. Then another retracting the first. I was curious why until I saw who wrote it and why. It only fits that you work for the Gattis. **Passive aggressive threat to a women. I see you fit right in with them. Heroin addict who was chased from his work n television. Arrogant spineless who chases crumbs after a dog who won't leave his house.** Let him know it's good that his not on official house arrest and saves the cost of paying the Marshalls. Scared to travel to the boroughs or I'd invite you both to dinner and talk about a proposal together. IL be oMulberry street Friday night with friends discussion over a tv. Project. Your both welcome to come. 8 o'clock. Besides that I'm curious why **your trying to intimidate a women when that's exactly your reputation trying to sleep with reporters from Daily mail etc. Lol.** Please keep your threats to a minimum. News flash Gatti is a rat since 2005 at least from what we know. Me I'm a cooperator who was once very violent but enjoys my life and what I do now helping kids. You guys should try it instead of being obsessed with me. It's over the mob his family lies and cons. So move on as I did. **So if your bent on being a boy toy with no pride for him then continue getting your crumbs. Your reputation is soiled as it is now your becoming a joke following Gatti around to the media people.** Keep a bit of pride for your own sake. . Thanks the video will be up for you and everyone to see by Friday. If you like to be at my next charity talk and event please feel free. You can be my personal guest IL treat you with respect and dignity if you **stop behaving like a lap dog but a respectable man** . Thanks again John Alite.
