SSA Brine and SA Aguirre,

Many thanks for reaching out to me following my call yesterday and the vm I left for the assistant to AUSA Jay Trezvant who was the lead prosecutor in U.S. vs. John A. Gotti in 2009, a trial during which the government's star witness was John Alite.

Based on what I told you during the phone interview this afternoon, I'm attaching the complete email exchange I had with Theresa Neuhoff, a reporter/columnist for www.morningjournal.com/news-herald.com whose initial coverage of Alite's remarks at a July 24th 2015 epilepsy fundraiser prompted my initial email requesting a copy of a transcript or recording of the event. (below is a link to her corrected column).

<http://www.morningjournal.com/opinion/20150730/neuhoff-former-mafia-members-explain-why-the-life-should-not-be-glamorized>

My intent in contacting her was purely journalistic -- seeking to determine if, in fact, Alite had admitted, as she first reported, to "committing more than 40 murders."

When she quickly reversed herself following my email, I questioned her motive after learning of her personal relationship with Alite, which, however brief, clearly exceeded the traditional boundaries of reporter and source.

My follow-up emails to her were in no way threatening, although, in his email to me, Alite characterized them as such.

The email chain is in reverse order with my most recent email to her

on top. I trust that the attachments will open.

Alite's August 4th, 2015 email to me, in which he falsely accused me of threatening her and made other false, defamatory and threatening remarks, is contained in that email chain. But I've also made a separate pdf of it attached.

Finally, I'm attaching a pdf of my Foreword to "Shadow of My Father," John A. "Junior" Gotti's memoir published on amazon.com in January just weeks before HarperCollins' publication of "Gotti's Rules" by George Anastasia based on Alite's account of events in his alleged relationship with Gotti Jr.

My description (in the Foreword) of Alite's testimony at Gotti Jr.'s fourth trial -- particularly the account on pages XXIV-XXV of how Alite reacted so violently to an electrician who worked on his property will give you some sense of what he's capable of.

On both direct examination and cross Alite proudly boasted of how he'd found this electrician sleeping in his bed and reacted by "piping" him, stripping him naked, throwing him into a pond on his property, shooting at him and leaving him tied up in his unheated garage in the middle of winter while he -Alite - went to dinner.

I'm not a psychiatrist, but I'd say that John Alite exhibits the benchmark traits of a narcissistic sociopath. He has a grandiose vision of himself and reacts strongly and violently to any criticism.

As I told you, I've covered law enforcement and organized crime for many years and given Alite's violent and murderous background, I wanted officials in the Justice Department, who were responsible for his early release, to understand his capacity to make threats -- particularly to a journalist.

Since he was released from prison early after AUSA's vouched for him, it's important that you understand his capacity for physical harm to others.

Please get back to me and let me know whether your assessment rises to the level of an investigation.

Many thanks,

Peter Lance

I received a email asking for a tape of my event in Cleveland. Then another retracting the first. I was curious why until I saw who wrote it and why. It only fits that you work for the Gottis. Passive aggressive threat to a women. I see you fit right in with them. Heroin addict who was chased from his work n television. Arrogant spineless who chases crumbs after a dog who won't leave his house. Let him know it's good that his not on official house arrest and saves the cost of paying the Marshalls. Scared to travel to the boroughs or I'd invite you both to dinner and talk about a proposal together. IL be on Mulberry street Friday night with friends discussion over a tv. Project. Your both welcome to come. 8 o'clock. Besides that I'm curious why your trying to intimidate a women when that's exactly your reputation trying to sleep with reporters from Daily mail etc. Lol. Please keep your threats to a minimum. News flash Gotti is a rat since 2005 at least from what we know. Me I'm a cooperater who was once very violent but enjoys my life and what I do now helping kids. You guys should try it instead of being obsessed with me. It's over the mob his family lies and cons. So move on as I did. So if your bent on being a boy toy with no pride for him then continue getting your crumbs. Your reputation is soiled as it is now your becoming a joke following Gotti around to the media people. Keep a bit of pride for your own sake. . Thanks the video will be up for you and everyone to see by Friday. If you like to be at my next charity talk and event please feel free. You can be my personal guest IL treat you with respect and dignity if you stop behaving like a lap dog but a respectable man . Thanks again John Alite.
